Pupil premium strategy statement 2024-27

Produced and published November 2024

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Dunnington C of E Primary School
Number of pupils in school	181
Proportion (%) of pupil premium eligible pupils	6%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2024-27
Date this statement was published	November 2024
Date on which it will be reviewed	November 2027
Statement authorised by	Local Governing Body
Pupil premium lead	Clare Thompson
Governor / Trustee lead	Kevin Hall

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year (Homes for Ukraine Premium not included)	£17,680
Recovery premium funding allocation this academic year	N/A
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	N/A
Total budget for this academic year	£17,680
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

All of our children in receipt of a Pupil Premium Grant will be prioritised for additional focus and support. They will receive effective Quality First Teaching, have access to good learning resources, be supported by skilled and knowledgeable teachers and teaching assistants and receive tailored academic and emotional/social support which will help them thrive and achieve well.

Our Pupil Premium Strategy Plan identifies the following key strands:

- Quality First Teaching
- Academic Support / Intervention
- Emotional/Social Support / Intervention

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Gaps in academic performance/attainment – assessments, observations and discussions show that disadvantaged children generally have greater difficulties with phonics, writing, maths fluency and concentration – negatively impacting their academic development.
2	Social, Emotional, Mental Health needs – particularly in relation to self- esteem, self-regulation and relationships
3	Early language, speech and communication needs
4	Early attachment issues which can impact on early educational development within the home (particularly post-adopted children)
5	Support with homework.
6	Access to technology and educational materials in the home

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome for Pupil Premium Pupils	Success criteria
Improved attainment in phonics, early reading and maths in KS1 and improved progress scores maths by end of KS2	KS2 mathematics and reading progress score to be consistently >0 (national average) for pupil premium cohort Gaps in learning are identified and support is given through quality first teaching and targeted intervention. Progress is reviewed and evaluated to show impact.
Pupils with SEMH needs will be happier within school and at home and will be more able to self or co-regulate within the school environment.	Pupil voice and parent voice alongside teacher observations evidence improved wellbeing CPoms logs show lower behaviour incidences Reduction in suspensions Pupils confidently able to engage in a full and balanced curriculum, adapted as appropriate. and also able to participate in a full range of extracurricular activities and experiences. Opportunities to be recognised as confident members of the class, taking on responsibility and representing the school.
Children from disadvantaged backgrounds will have access to enrichment activities after school	Pupil voice, parental voice. Pupils confidently engage in a full range of extracurricular activities and experiences.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD +supply, recruitment and retention)

Budgeted cost: £8090

Activity	Evidence that supports this approach	Challenge number(s) addressed
Additional teaching assistant support as required in classes.	Staff feedback Additional resource to provide academic and SEMH support There is extensive evidence associat- ing childhood social and emotional skills with improved outcomes at school and in later life. EEF Social emotional learning	1, 2, 3, 4
Staff CPD which includes teaching assistants (staff meeting time, phase meeting time and training) with a particular focus on maths teaching and learning, Zones of Regulation and ADHD Friendly Schools.	High quality staff CPD has resulted in improved Quality First Teaching (EEF) Social and emotional learning, EEF Evidence suggests that children from disadvantaged backgrounds have, on average, weaker Social Emotional Learning skills at all ages. These skills are likely to influence a range of outcomes for pupils: poorer mental health and lower academic attainment.	1, 2, 3, 4
Continued investment in Little Wandle Letters and Sounds systematic, synthetic phonics programme	Supporting staff to achieve greater levels of consistency in approach to teaching of phonics and early reading Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly those from disadvantaged backgrounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions. EEF phonics toolkit Closing the Gap	1

Continued focus on	Research by NCETM indicates that	1
embedding a mastery	the NCETM/Maths Hubs Teaching for	
approach in maths to	Mastery Programme is having a

mathematics.	deeper understanding; and there are	
	encouraging signs that pupils are	
	learning maths more securely. Early	
	intervention models are enabling	
	children to 'keep up, not catch up';	

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £8090

Activity	Evidence that supports this approach	Challenge number(s) addressed
Investment in training and employing high quality TAs to deliver:	Evidence based interventions that indicates a positive impact.	1, 2, 3, 4
Sensory Circuits Little Wandle phonics Zones of Regulation ADHD Friendly Strate- gies Demand Avoidance Using Visuals Anger	EEF making the best use of TAs	
Pupil Premium children targeted for extra intervention and support within lessons – particularly focussed on phonics catch up and fluency in mathematics.	Structured interventions (as recommended by EEF) have improved pupil academic outcomes in the past EEF making the best use of TAs Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly those from disadvantaged backgrounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions.	1, 2, 3, 4
	EEF phonics toolkit	

	Closing the Gap	
One to one support to ensure safety of individual pupils, peers and staff and to provide a bespoke curriculum with reduced demands and motivational activities.	One to one support has been recommended by all outside agencies as the best way to support particular children, ensure safety and provide the best opportunity for success in school. EEF social and emotional learning	1, 2, 3, 4

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £1500

Activity	Evidence that supports this approach	Challenge number(s) addressed
Whole staff training on improving behaviour across school, using restorative practices and a trauma informed approach to ensure children have a sense of belonging and develop a love of learning.	Both targeted interventions and universal approaches can have positive overall effects: EEF Improving school behaviour.	2, 4
Headteacher engagement in Behaviour and Belonging Course and related activities. Team teach training.		
ELSA training and attendance at support network meetings to increase capacity for support	ELSA work in schools has proven impact on children's SEMH development and needs	2,4,
Mental Health/ Wellbeing Leads to support pastoral needs of children in school and help to engage families	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life. EEF Social emotional learning	2, 4

in their child's education. These roles will also be to support children's attendance and anxiety around coming to school.		
Improve the playtime and lunchtime experience for all children.	Playtime constitutes 20% of a child's time in school. Lots of evidence suggesting mental health and wellbeing benefits of investing in playtime and lunchtime. Research found that, amongst the schools which had previously completed the OPAL Programme to Platinum Award standard; 1) 100% of girls are now active and engaged every lunchtime play session 2) Behaviour improves by 80% and reported injury rates decrease (improved spatial awareness, resilience & risk adeptness) 3) All teachers say they have gained 10 minutes extra teaching time after play because pupils are happier, satisfied with their play experiences and ready to learn 4) Children's self-reported happiness increases 5) 97% of children report full engagement/absorption in play, eliminating boredom 6) staff say they feel happier, more engaged and confident 7) Parental support has grown	2,4
Support plan/ provision map for individual needs	Strategies have been recommended by all outside agencies as the best way to support these children, ensure safety and provide the best opportunity for success in school.	1, 2, 3, 4
Referrals for external support.		
Close working with Learning Hub, Educa- tional Psychologist, Virtual Schools and families.		
Engagement with appropriate alternative provision to reduce risk		

Linto ine ciassioom	of permanent exclusion and allow for successful reintegration into the classroom.

Total budgeted cost: £17,680

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023 to 2024 academic year.

During the academic year 2023-24, all eligible pupils have accessed effective quality first teaching. Where eligible pupils fall below age-related expectations or make slower than expected progress, they were prioritised for additional class teacher support, teaching assistant support and interventions, including ELSA support, if required.

Throughout the year, we have put in huge levels of support to create bespoke timetables and provision for children struggling with anxiety, a sense of belonging and ability to regulate in school. We developed good relationships with external agencies, worked closely with families and invested in high quality staff CPD to support these children. Children, who were in crisis, now feel safe, secure and are experiencing success in school – a huge success we are incredibly proud of.

We worked hard to develop our behaviour regulation policy with a focus on restorative practice and relationships. This was supported by the introduction of Zones of Regulation. Pupil voice and observations indicate pupils have a greater awareness of their emotions, how to regulate and are, on the whole, able to engage positively in school. Staff voice also shows increased belief and confidence that the behaviour regulation policy is able to meet the needs of all pupils.

We continue to build on the pupil premium strategy plan from 2023-2024 into 2024-2025, striving to ensure that every pupil experiences a sense of belonging at school alongside experiencing academic success.

Internal data for Pupil Premium (based on teacher assessments July 2024)
